

Accessories for industrial vacuum / suction

PVC Universal suction and transport hose, especially suitable:

- solids such as dust, powder and fibers
- gaseous and liquid media
- de-dusting and suction plants, air-conditioning technology

Material: high quality soft PVC with spiral wire spring

Description	ø	Temperature	not EX	EX
Suction hose PVC	38	-20 untill +70°C	2002985	
Suction hose PVC	60	-20 untill +70°C	2003836	
Suction hose PVC	75	-20 untill +70°C	2008152	
Suction hose PVC	100	-20 untill +70°C	2008265	

transparent, highly flexible
FDA hoses on request

CBS hose especially suitable for:

- Industrial Vacuum
- Swimming pool cleaning
- de-dusting and suction plants, air-conditioning technology

Material: high quality EVA plastic without spiral reinforcement / EX = electrically conductive

Description	ø	Temperature	not EX	EX
Suction hose CBS	38	-45 untill +65°C	2003228	2000569
Suction hose CBS	50	-45 untill +65°C	2003229	2000847

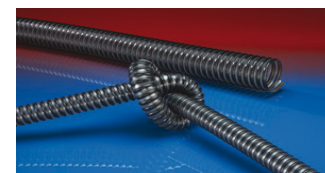

transparent, highly flexible
FDA hoses on request

PU abrasion resistant, suction and transport hose, especially suitable:

- Hazardous Areas (Ex-proof)
- abrasive solids such as dusts, powders, fibers, chips and granules
- gaseous and liquid media
- dust collection / extraction systems, industrial vacuum cleaners, suction of Paper and textile fibers

Material: Premium ester polyurethane with spiral wire spring / EX = electrically conductive

Description	ø	Temperature	not EX	EX
Suction hose PU	38	-40 untill +90°C	2004772	2004693
Suction hose PU	40	-40 untill +90°C		2008020
Suction hose PU	50	-40 untill +90°C	2004208	2005012
Suction hose PU	60	-40 untill +90°C		2004447
Suction hose PU	70	-40 untill +90°C		2008061
Suction hose PU	80	-40 untill +90°C		2004448
Suction hose PU	90	-40 untill +90°C		2004369
Suction hose PU	100	-40 untill +90°C		2004449
Suction hose PU	160	-40 untill +90°C		2009329

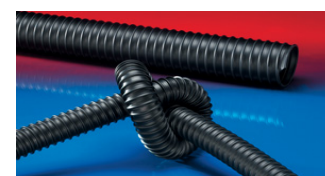

transparent, highly flexible
FDA hoses on request

PE suction and transport hose, especially suitable:

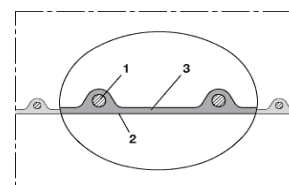

- Hazardous Areas (Ex-proof)
- aggressive solids such as dusts, powders, fibers, chips and granules
- aggressive gaseous and liquid media
- vacuum cleaners, conveyors, compressors and compressors
- the chemical industry

Material: polyethylene with special spring wire helix / EX = electrically conductive

Description	ø	Temperature	not EX	EX
Suction hose PE	38	-40 untill +90°C	2008268	2003390
Suction hose PE	50	-40 untill +90°C		2004236
Suction hose PE	60	-40 untill +90°C		2008736
Suction hose PE	70	-40 untill +90°C		2004237
Suction hose PE	80	-40 untill +90°C		2004445
Suction hose PE	100	-40 untill +90°C		2004446
Suction hose PE	160	-40 untill +90°C		2009107

transparent, highly flexible
FDA hoses on request

1. in the wall of immovable cast spring steel wire
2. flared profile
3. wall thickness
