

Accessories for industrial vacuum extraction systems and stationary

Hose outlets and connectors EX

EX II 1/2 GD

Range of applications

Suitable for holding combustible dusts in chemical, pharmaceutical and petrochemical industries as well as explosive and waste processing.

Suitable for holding combustible dusts in chemical, pharmaceutical and the tube socket and hose connectors are used to connect a single suction device or a suction hose to a fixed piping house or a wall-through.

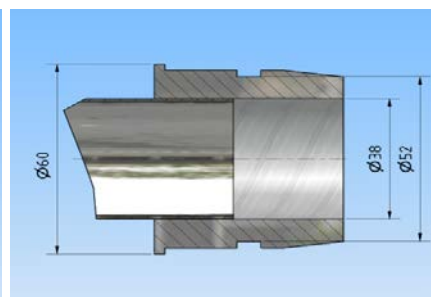

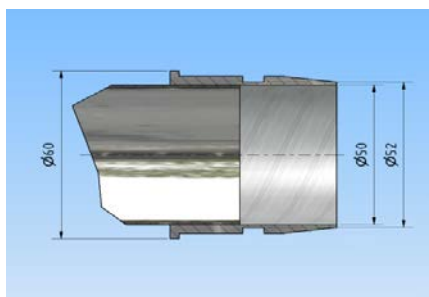

The hose connection box can be connected to a house piping without great effort. To the suction hose to connect the lid is pulled up to the box and plugged the plug. By a bolt snap the connector is fixed.

Optional control and level control

Features/ Advantages

- Easy handling
- Highest technical security
- Solvent Resistant
- Stainless steel hose outlets
- aluminum hose connector
(All stainless steel on request)

Hose connector - socket	Art.Nr.
Hose connection DN 50 outlet pipe for VA DN 60 with flap	2008705
Hose connection DN 60 outlet pipe for VA DN 80 with flap	2008888
Hose connection DN 80 outlet pipe DN 100 with VA on flap	2008889
Hose connection box on VA DN100 pipe DN 100 with lid	2008905

Hose connector - connector	Art. Nr.
Hose connector plug-DN 50 to DN 38 hose / R 60VA	2008886
Hose connector plug-DN 50 to DN 50 hose / R 60VA	2008706
Hose connector plug-DN 60 to DN 60 hose / R 80VA	2008887
Hose connector plug-DN 80 to DN 80 hose / R100VA	2008890
Hose connection to hose connector DN100 DN100 / R100VA	2008904

Vacuum cleaner set

Depending on the application, we supply complete sets of equipment. (On request)
