

Industrial Vacuum Cleaner for dust

Electrical

MAX / MAX CD* PRIMA / PRIMA CD*

Dry Vacuum Cleaners

Features

- Power 1.000 Watt Motor
- Twin fan motor
- Double filtration
 - 1. Disposable paper bag
 - 2. Cloth filter
- Choice of disposable paper bag or reusable cloth bag
- On wheels
- Thermal switch protection against overheating
- Electro cable, moulded on plug, Length: 10m
- Tool storage facility conveniently situated between rear wheels
- manually operated cable rewind system

The Max and PRIMA vacuum cleaners are fully injection moulded and are equipped with a detachable cover to reveal a handy onboard tool storage facility to locate the accessories when not in use.

Both models are equipped with an own multistage Direct Airflow motor, double filtration, a full 32mm accessory kit and 10 meter cable with moulded on plug. The Max CD and PRIMA CD have the extra advantage of a manually operated cable rewind system.

Due to their light weight and compact design both of these machines are suitable both for domestic use and the heaviest industrial use also.

These advanced design features make these models especially suitable for schools, hotels, restaurants, contract cleaning, offices and public houses.
