

Industrial Dry Vacuum Cleaners

Electrical

KV 90
KV 200

Dry Vacuum Cleaners

Features

- Twin fan motors
- Two or three motors
- Thermal switch protection against overheating
- Double filtration:
 - permaflow filter
 - cartridge filter per motor
- Hose entry for 100 mm and adapter for standard hose entry
 - Accepts 32, 38 & 51 mm. 38 & 51 mm recommended
- Optional drop in chassis with 4 x 75 mm castors
- Hoses and tool kits to suit your application

Application

The KV 90 & KV 200 are purpose built large capacity multi purpose dry vacuum cleaners/extractors for collection of coarse lightweight debris such as wood & plastic chips, granules, paper, cardboard and fabric off cuts.

These models can be used in three different ways: As a wood chippings and shavings extractor when connected by the see through 100mm hose to outlet manifold on woodworking machines (saws, planes, routers etc.). As a dry vacuum cleaner for large debris using the 100 mm see through hose and 100mm Gulper tools. As a high capacity dry vacuum cleaner using a 38mm hose and tool kit.

A high degree of filtration is achieved using our special non cling permaflow filter and high efficiency pleated cartridge filter. Each motor is equipped with its own cartridge filter for maximum efficiency and airflow.

Accessories:	
Description	Part-No.
100mm x 2.5m Extraction Hose Assembly	see catalogue
100mm x 1.3m Gulper/Scraper Tool	see catalogue
100mm x 0.4m Gulper/Scraper Tool	see catalogue
