

high grade + large filter + pharma

**Industrial vacuum for dust**

Electric

**EP 1136**

**Mobile heavy-duty industrial vacuum cleaners for dusts**

**Range of application**

High performance industrial vacuum cleaner designed for sucking up dust. The rugged construction suitable for rugged industrial use. Can also be used in small tube or systems with long suction hoses.

**Properties/Advantages**

- Highest technical security
- H-filter optional
- Built-in cyclone
- Very robust
- Soundproofed turbo fan
- Effective, easy-to-use filter
- Vacuum gauge for filter monitoring
- Simple operation and maintenance

The integrated centrifugal separator allows a better pre-filtering of fine dust particles and coarse material. For a safe attachment of the suction hose ensures a quick release with locking device and rotating device. The extremely simple operation and cleaning capabilities of the vacuum cleaner designed specifically for industrial applications.
